4. Agenda Item #1: 4th Quarter Data Dashboard

- a. Discussed inaccurate data of extra-curricular participation, the hurdles with collecting such data and brain stormed ways to collect data for the upcoming school year.
- b. Discussed Fountas and Pinnell data and the issue with Kindergarten not being in Fall data. We will included that next year. We also may go to a pie chart.

5. Agenda Item #2: Regents Exam Results

- a. Saw that there are a lot of celebrations to be had, but that we also have areas that are in need of improvement. We ranked in the top 5 in 7 out of 10 tests! Living Environment and Earth Science will be areas of focus this upcoming year.

6. Agenda Item #3: Focused discussion on Geometry and Algebra

- a. There is not a clear way to determine the effectiveness of putting geometry before Algebra for accelerated students. There are too many factors and changes to be able to definitively say whether it's the right way to go. Teachers want it to remain that way and it will.

7. Agenda Item #4: Preliminary 3-8 Results - We did not receive these until today so will meet in September.

8. Adjourn Meeting at: 6:17 pm

a. Motion by: Casey Doyle

b. Seconded by: Michelle Wilson
