4. Agenda Item #1: Special Education- Overview of Data and projected programing for 2017-2018

The CV Data Dashboard for Special Education was presented and discussed. We looked at classifications, referrals, placements and costs associated with those placements, programs and services. There was mention of the possibility of an additional special education teacher needed for the 2017-2018 school year. We also discussed how important this data is to establish baselines and analyzing and using comparative data from here on out will be especially useful. The committee agreed that the data included on the dashboard was what we would like to continue to see. There will be one addition and that has to do with an indication of how our expenditures are correlating with what we have budgeted.

5. Agenda Item #2: Follow-Up Discussion on Enriched/Accelerated Classes in the Middle School and High School.

We had a follow-up discussion on enriched or accelerated classes for math and science like there is in the humanities. It is the understanding that for the next school year we will be offering those classes in the high school. We also discussed AP classes vs. college level classes and the pros and cons of both. Although ideally we would like to offer a combination of both, resources may not allow that to happen. There will be further research done in this area and will be a topic of discussion at our March meeting.
