Agenda Item: Data Dashboard

Discussion:

Sarah presented what information the data dashboards will include. The special education data topics were discussed, as well as others that will be included on the District and building level dashboards. The amount of data that will be collected and shared is abundant. There were also a few additional areas that were discussed and will be added to the dashboard.

Conclusion:

Sarah will be working on the collection of data and the process of inputting said data. She will begin presenting some areas to the Board during the November meeting.

Agenda Item: Creating an Educational Excellence Committee Timeline/Overview

Discussion:

At the beginning of the meeting there was a discussion on the purpose and direction of this committee. Mr. Gill shared his thoughts and the committee members did, as well. Expectations were discussed which included the commitment to leave each meeting with clear and identifiable tasks and timelines on when we will revisit each area (if necessary). A monthly calendar with topics to be covered was developed at the end of the meeting.

Conclusions:

The next meeting will be on November 29th at 4:30pm and the agenda will include elementary testing data. Although no dates were set, the December meeting will be secondary focused and include discussion on accelerated classes, recommendations and course offerings. January will focus on special education. February will discuss budget needs and March will be interim K-8 data (Fountas and Pinnel and AIMS Web).
