DISCUSSION: We discussed the things that we learned from the survey, and changes that we would like to incorporate in the survey for next year. This is not a complete list as we are still working on it. We feel that the public felt that they had a lack of communications with the BOE, specifically with the short fall. The public thought that they should have known as soon as the BOE did. Over 200 who completed the form had a lack of confidence in the BOE and the administration. Over 100 didn't feel that the budget was sound. The question about the source of budget information, the Newscaster was tops with 312, News paper was second with 299, and web site was near the bottom with 74 . We feel that some questions were to broad, and needed to be restructured. The question of how long you have lived in the district should be added. We will be adding some recommendations shortly, to improve our communications, and to improve the survey. We request of the BOE : That you submit three items that interested you on the 08 survey, and E-Mail them to Jack and we will collate the info and report back.

SIGNED: Jack Cashman
