

### Chenango Valley Staff Development

It is the policy of the Board of Education that the success of its educational goals depends upon the professional growth and effectiveness of the entire staff. The Board also recognizes its responsibility to encourage staff development through goal setting, budgetary commitment and monitoring by administration of staff development activities.

To support this policy the Board of Education will review on an annual basis the staff development activities in addition to the district-wide goals. The Superintendent of Schools will have the authority to approve release time and expenses for staff members in attendance at professional conferences, inservices, workshops, etc. within budget constraints and based upon administrative recommendations.
